

Foils For Outdoor Displays

Overview

For harsh outdoor conditions and UV exposure

These optical grade films are ideal for the use as top foil on high resolution displays. The Antiglare hardcoat improves outdoor readability and offers excellent chemical and scratch resistance. The integrated UV filter protects printing colours and display components from radiation damage.

Applications:

- EV charging and gasoline station displays
- Exposed vending machines and Kiosk touch displays
- Vehicle displays and touch panels

Products

KB Film N9UAS

KB Stick S9U

Features

**Hard Coated
Antiglare / UV-Cut
Anti Newton HC
Resistive Touch**

**Hard Coated
Antiglare / UV-Cut
Anti-Shatter Adhesive
Capacitive Touch**

Weather resistant
Outdoor displays
Vending machines
Vehicle displays
